

Eco Friendly Container Houses 20ft / 40ft Affordable Sustainable Container Homes

Our Product Introduction

for more products please visit us on prefabricated-containerhouses.com

Basic Information

- Place of Origin: china
- Brand Name: INFINTE STARS
- Certification: CE/ISO9001/ISO45001/ISO14001
- Model Number: H
- Minimum Order Quantity: 7 Sets
- Price: dollar1300 /1set
- Packaging Details: One 40 'high container for Marine insurance, can hold 6 sets
- Delivery Time: 5-8work days
- Payment Terms: L/C, T/T
- Supply Ability: 100set/day

Product Specification

- Name: Eco Friendly Container Houses
- Door Material: Steel/Aluminum Alloy
- Installation: Quick And Easy
- Insulation: 50mm/75mm/100mm
- Window Material: PVC/Aluminum Alloy
- Design: Modular/Customizable
- Color: Customizable
- Wall Material: EPS/PU/Rock Wool
- Material: Steel
- Usage: Residential/Commercial
- Lifespan: More Than 20 Years
- Roof Material: EPS/PU/Rock Wool
- Size: 20ft/40ft
- Floor Material: Plywood/Vinyl/Composite Board
- MOQ: 7 PCS

Product Description

Looking for a housing solution that combines environmental sustainability with affordability? Our container homes offer the perfect blend of both.

Its features:

Environmental Sustainability: Our container homes are crafted from repurposed shipping containers, reducing the demand for new construction materials and minimizing environmental impact. By giving new life to these containers, we contribute to the reduction of waste and promote eco-conscious living.

Cost-Effectiveness: Compared to traditional housing, container homes offer significant cost savings. Utilizing pre-existing containers as building blocks reduces material costs and construction time, making our homes a more budget-friendly option for homeowners and builders alike.

Quick Construction: With pre-fabricated components and standardized dimensions, container homes can be assembled much faster than traditional homes. This means less time spent on construction, lower labor costs, and quicker occupancy for homeowners.

Customizable Designs: Despite their modular nature, container homes offer endless possibilities for customization. From layout and interior design to exterior finishes, our homes can be tailored to meet your unique preferences and lifestyle needs.

Durability: Built to withstand the harsh conditions of sea transport, shipping containers are inherently durable and resilient. This durability translates into long-lasting homes that require minimal maintenance over their lifespan.

Whether it's used as temporary housing, emergency shelters, or mobile offices, our Fireproof Portable Integrated Living Container offers a versatile solution for various applications.

Standard Package Container House Datasheet		
Product Specification: 2.99-meter standard container	Length(mm)	6055(5840)
	Width(mm)	2990(2780)
	Height(mm)	2896(2550)
	Roof	organized drainage
	Number of floors	≤3
Design parameters	Service life	8-10 years
	Container weight	≤1.96T
	Ground live load	1.8KN/
	Roof live load	1.0KN/
	Wind load	0.8KN/
	Seismic degree	8
Structural	corner column	Galvanized cold rolled section steel, t=2.5mm, H2450X4 pcs material Q235B
	roof main beam	Galvanized cold rolled section steel, t=2.5mm, L5630X2pcs /L2690X2pcs material Q235B
	roof sub-beam	Galvanized square steel, t=1.8mm40*60X6 square tubes, radian t=1.8mm 15*30X3pcs square tube material Q235B
	floor main beam	Galvanized cold rolled section steel, t=2.5mm, L5630X2pcs /L2690X2pcs, material Q235B
	floor sub-beam	Galvanized square steel t=1.2mm, sub-beam X9pcs square tube material Q235B
	Angle piece hanging head	4.2mm steel galvanized stamping welding built-in bucket Angle piece X8
	Paint	Graphene Powder spraying (Electrostatic spraying)
Roof	Roof panel	0.5mm thick color steel plate 360 degree bite, color white gray
	Thermal insulation	100mm glass thermal insulation foam
	Ceiling plate	0.38 thick 831 ceiling
	downpipe	Four corners of downpipe 50PVC pipe X4pcs
Floor	Base	18mm thick fiber cement pressure plate, density ≥0.8g/cm³
Wall	Thickness	50mm thick color steel rock wool sandwich board; The outer and inner plates are made of 0.35mm galvanized color steel plate
	Heat preservation	75mm thick rock wool, bulk weight ≥90kg/m³, combustion performance is class A non-combustible
	Color	white gray PE coating
Door	Spec(mm)	Width X height =840*2035 high-end door
	Material	Steel door with paint

Window	Spec(mm)	Front window: width X height =1150*1100: width X height =1150*1100; (Standard) Hollow window anti-theft integrated window
	Frame	Plastic-steel
	Glass	Ordinary 4+9+4 hollow

These features describe the key advantages and functionalities of our Fireproof Portable Integrated Living Container, providing a flexible and reliable solution for various scenarios.

Why Choose Us:

Commitment to Sustainability: We are dedicated to promoting sustainable living practices and minimizing our environmental footprint.

Affordable Solutions: Our container homes provide an affordable housing option without compromising on quality or comfort.

Expertise and Experience: With years of experience in container home construction, we have the knowledge and expertise to deliver high-quality, cost-effective solutions.

Customer Satisfaction: Your satisfaction is our top priority. We work closely with you to understand your needs and deliver homes that exceed your expectations.
