

Quick Assembly Detachable Container House Prefab Custom ISO9001 Approved

Our Product Introduction

for more products please visit us on prefabricated-containerhouses.com

Basic Information

- Place of Origin: China
- Brand Name: INFINITE STARS
- Certification: CE, ISO14001, ISO45001, ISO9001
- Model Number: D01
- Minimum Order Quantity: 7 Sets
- Price: USD 1200~1500/Set
- Packaging Details: one 20-foot shipping container can carry 7 sets
- Payment Terms: L/C, T/T
- Supply Ability: 2000 Sets PER Month

Product Specification

- Material: Steel
- Application: Dormitory, Camp, Office, Canteen, Shop, Toilet And Shower, Viewing Pavilion, Firefighting Station, Isolation Ward, Etc.
- Structure: Steel Container House
- Outer Size: Customer's Requirement
- Loading Quantity: 7 Units/20gp 17 Units/40hq
- Floor Board: 18mm Sanding Board
- Frame: Square Tube Truss
- Installation: Easy And Fast
- Product Type: Detachable Container
- Service Life: 5-8 Years
- MOQ: 7 PCS
- Highlight: **Quick Assembly Detachable Container House, Detachable Container House Prefab, ISO9001 Custom Prefab Container House**

Product Description

Prefeb Quick Assembly Customizable Detachable Container House

As a wholly-owned subsidiary of Wujiang Saima (established in 2005), Suzhou Stars Integrated Housing Co., Ltd. focuses on foreign trade. As one of the most professional prefabricated house manufacturers in south-east China, we provide customers with all kinds of integrated housing solutions.

Equipped with complete production lines, including sandwich panel production machines and steel structure production line, with 5000 square meter workshop and professional staff, we already built long-term business with domestic giants like CSCEC and CREC. Also, based on our export experience in the past years, we are furthering our steps to global customers with best product and service.

As a supplier to overseas customers all over the world, we are very familiar with the manufacturing standards of various countries, such as European standards, American standards, Australian standards, and so on. We have also participated in the construction of many large-scale projects, such as recent 2022 Qatar World Cup camping construction .

Detachable container houses offer several advantages:

Flexibility: Detachable container houses are designed to be easily assembled and disassembled, offering flexibility in terms of relocation. This means that they can be moved and reassembled at different locations as needed, making them suitable for temporary housing, remote work sites, or situations where mobility is required.

Scalability: Modular container houses can be easily expanded or downsized by adding or removing modules. This scalability allows for adjustments based on changing needs, such as accommodating a growing family or downsizing when fewer living spaces are required.

Quick Assembly: Similar to other container housing options, detachable container houses can be assembled quickly using prefabricated components. This rapid assembly process reduces construction time and labor costs, making them an attractive option for emergency housing or rapid deployment situations.

Customization: Detachable container houses can be customized to meet specific design preferences and requirements.

Modular construction allows for flexibility in layout, size, and configuration, with options for adding features such as windows, doors, insulation, and interior finishes.

Cost-effectiveness: Modular container houses are often more cost-effective than traditional construction methods. They require less material and labor for assembly, resulting in lower construction costs. Additionally, their modular nature allows for efficient use of resources and reduced waste.

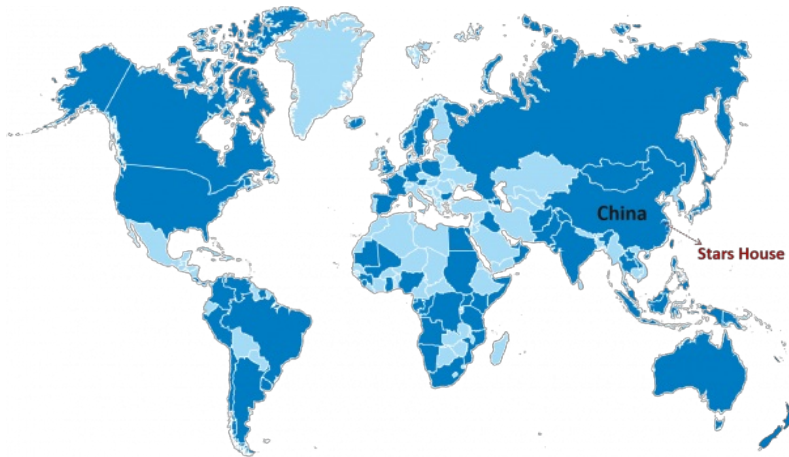

Durability: Detachable container houses are made from durable shipping containers, which are designed to withstand harsh environmental conditions. They are resistant to wind, water, and fire damage, providing a safe and secure living environment for occupants.

Sustainability: Repurposing shipping containers for housing helps reduce waste and environmental impact by giving new life to materials that would otherwise be discarded. Additionally, modular container houses can be designed to be energy-efficient, with features such as solar panels, rainwater harvesting systems, and energy-efficient appliances.

Overall, detachable container houses offer a practical and sustainable solution for affordable housing, emergency shelters, and temporary accommodation needs, with the added benefits of flexibility, scalability, and quick assembly.

Standard Quick Assembly Container House Datasheet		
Product Specification: 3-meter standard container	Length(mm)	5950(5730)
	Width(mm)	3000(2800)
	Height(mm)	2800(2500)
	Center column	
	Roof	Flat roof, free drainage
	Number of floors	≤3
Design parameters	Service life	5-8 years
	Ground live load	1.8KN/
	Roof live load	0.5KN/
	Wind load	0.6KN/
	Seismic degree	8
Structural	corner column	galvanized cold rolled section steel, t=2.3mm, material Q235B
	roof main beam	galvanized cold rolled section steel, t=2.3mm, material Q235B
	roof sub-beam	Galvanized square steel 5*5, t=1.5mm, radian galvanized square steel 4*6t= 1.2mm material Q235B
	floor main beam	galvanized cold-rolled section steel, t=2.3mm, material Q235B
	floor sub-beam	galvanized square steel 4*8 (5), galvanized square steel 8*8 (4) material Q235B
	Paint	Graphene Powder spraying (Electrostatic spraying)
Roof	Roof panel	0.40mm thick color steel plate, color white gray
	Ceiling	0.25mm thick 811 ceiling, color white gray

Floor	Decorative surface	
	basic floor	18mm sanding board
Wall	Thickness	50mm thick color steel glass fiber sandwich board; The outer and inner plates are made of 0.3mm aluminum plated zinc color steel plate
	Heat preservation	50mm thick glass silk wool, bulk weight $\geq 60\text{kg/m}^3$, combustion performance is class A non-combustible
	Color	white gray PE coating
Door	Spec(mm)	Width X height =920*2030 common door
	Material	Steel door
Window	Spec(mm)	Front window: width X height =920*1200; Rear window (standard) : width X height =920*1200;
	Frame	Plastic steel window single glass
	Glass	common
Electricity	Voltage	220V~250V
	Wire	input power wire is 4 square, AC wire is 4 square, socket wire is 2.5 square, lighting switch wire is 1.5 square
	Circuit breaker	High break Miniature Circuit breaker (32A)
	Lamp tube	Two sets of circular LED fluorescent lamps
	Socket	3 five-hole socket 10A, 1 three-hole air conditioning socket 16A
