

Shower Detachable Container House Easy Transportation Deployment

Our Product Introduction

for more products please visit us on prefabricated-containerhouses.com

Basic Information

- Place of Origin: China
- Brand Name: INFINITE STARS
- Certification: CE, ISO14001, ISO9001, ISO45001
- Model Number: D04
- Minimum Order Quantity: 7 Sets
- Price: USD 1200~1500/Set
- Packaging Details: 7 units/20gp 17 units/40hq
- Supply Ability: 2000 Sets PER Month

Product Specification

- Wall: Sandwich Panels
- Wall Material: Rock Wool Sandwich Panel
- Roof And Wall: Color Steel Sheet
- Painting: Baking Finish
- Loading Quantity: 7 Units/20gp 17 Units/40hq
- Design: Based On Customer's Request
- Keyword: Mobile Container Toilet
- Floor Material: 18mm Sanding Board
- Dimensions: 5950mm(L) * 3000mm(W) * 2800mm(H)
- Electricity Device: Switch, light, socket, etc
- MOQ: 7 PCS
- Highlight: **Shower Detachable Container House, Detachable Container House Easy Transportation**

Product Description

Shower Detachable Container House Easy Transportation Deployment

The reasons for choosing a detachable container house shower include:

Portability and Flexibility: A detachable container house shower offers the convenience of portability, allowing you to easily move it to different locations based on your needs. Whether you're at a construction site, a camping trip, or a temporary living space, the shower can be quickly set up and taken down.

Modular Construction: The modular design of a detachable shower makes it simple to transport and install. Each component can be easily assembled, disassembled, and stored, making it suitable for a variety of settings.

Space Efficiency: Container house showers are designed to maximize space usage, providing a compact showering area that can fit into small spaces. This makes them ideal for temporary or mobile living quarters where space is limited.

Ease of Maintenance: With a detachable shower, maintenance and cleaning are simplified. The components can be easily accessed and replaced if necessary, and the entire shower can be disassembled for thorough cleaning.

Privacy: By enclosing the shower in a detachable container, you can maintain privacy while showering, especially in shared or public spaces. This provides a sense of comfort and security for users.

Durability: Container house showers are typically made from sturdy materials that can withstand wear and tear, ensuring long-lasting performance. They are designed to be robust and reliable, even in harsh conditions.

Cost-Effectiveness: Although the initial investment in a detachable container house shower may be higher compared to traditional showers, the long-term cost savings can be significant. They require less maintenance and can be reused multiple times, making them a cost-effective solution for temporary or mobile applications.

In summary, the portability, modular construction, space efficiency, ease of maintenance, privacy, durability, and cost-effectiveness are key reasons for choosing a detachable container house shower.

Standard Quick Assembly Container House Datasheet		
Product Specification: 3-meter standard container	Length(mm)	5950(5730)
	Width(mm)	3000(2800)
	Height(mm)	2800(2500)
	Center column	
	Roof	Flat roof, free drainage
	Number of floors	≤3
Design parameters	Service life	5-8 years
	Ground live load	1.8KN/
	Roof live load	0.5KN/
	Wind load	0.6KN/
	Seismic degree	8
Structural	corner column	galvanized cold rolled section steel, t=2.3mm, material Q235B
	roof main beam	galvanized cold rolled section steel, t=2.3mm, material Q235B
	roof sub-beam	Galvanized square steel 5*5, t=1.5mm, radian galvanized square steel 4*6t= 1.2mm material Q235B
	floor main beam	galvanized cold-rolled section steel, t=2.3mm, material Q235B

	floor sub-beam	galvanized square steel 4*8 (5), galvanized square steel 8*8 (4) material Q235B
	Paint	Graphene Powder spraying (Electrostatic spraying)
Roof	Roof panel	0.40mm thick color steel plate, color white gray
	Ceiling	0.25mm thick 811 ceiling, color white gray
Floor	Decorative surface	
	basic floor	18mm sanding board
Wall	Thickness	50mm thick color steel glass fiber sandwich board; The outer and inner plates are made of 0.3mm aluminum plated zinc color steel plate
	Heat preservation	50mm thick glass silk wool, bulk weight $\geq 60\text{kg/m}^3$, combustion performance is class A non-combustible
	Color	white gray PE coating
Door	Spec(mm)	Width X height =920*2030 common door
	Material	Steel door
Window	Spec(mm)	Front window: width X height =920*1200; Rear window (standard) : width X height =920*1200;
	Frame	Plastic steel window single glass
	Glass	common
Electricity	Voltage	220V~250V
	Wire	input power wire is 4 square, AC wire is 4 square, socket wire is 2.5 square, lighting switch wire is 1.5 square
	Circuit breaker	High break Miniature Circuit breaker (32A)
	Lamp tube	Two sets of circular LED fluorescent lamps
	Socket	3 five-hole socket 10A, 1 three-hole air conditioning socket 16A

As a wholly-owned subsidiary of Wujiang Saima (established in 2005), Suzhou Stars Integrated Housing Co., Ltd. focuses on foreign trade. As one of the most professional prefabricated house manufacturers in south-east China, we provide customers with all kinds of integrated housing solutions.

Equipped with complete production lines, including sandwich panel production machines and steel structure production line, with 5000 square meter workshop and professional staff, we already built long-term business with domestic giants like CSCEC and CREC. Also, based on our export experience in the past years, we are furthering our steps to global customers with best product and service.

As a supplier to overseas customers all over the world, we are very familiar with the manufacturing standards of various countries, such as European standards, American standards, Australian standards, and so on. We have also participated in the construction of many large-scale projects, such as recent 2022 Qatar World Cup camping construction.

Suzhou Stars Integrated Housing Co., Ltd. mainly has five types of products: folding container house, flat pack container house, detachable container house, modified shipping container (in development), and steel structure construction, which can be widely used in many fields, such as dormitory, camp, office, canteen, shop, toilet and shower, viewing pavilion, firefighting station, isolation ward, etc.
