Product Description

Modular Shower Room Detachable Container House Easy Deployment Quick Relocation

Choosing detachable container house shower and toilet units offers many benefits, includes but not limits to below:
Firstly, Easy to move: You can transport them easily, making them great for temporary setups like construction sites or outdoor events.

Secondly, Flexible: You can arrange them however you want because they're not fixed in place.

Additionally, Cost-effective: They're often cheaper than permanent structures, especially for short-term needs.

Moreover, Quick to install: Since they're pre-made, you can set them up quickly.

Furthermore, Clean and convenient: They come with modern amenities and are easy to keep clean.

Lastly, Environmentally friendly: Some are designed to be eco-friendly, reducing their impact on the environment.

As a wholly-owned subsidiary of Wujiang Saima (established in 2005), Suzhou Stars Integrated Housing Co., Ltd. focuses on foreign trade. As one of the most professional prefabricated house manufacturers in south-east China, we provide customers with all kinds of integrated housing solutions.

Equipped with complete production lines, including sandwich panel production machines and steel structure production line, with 5000 square meter workshop and professional staff, we already built long-term business with domestic giants like CSCEC and CREC. Also, based on our export experience in the past years, we are furthering our steps to global customers with best product and service.

As a supplier to overseas customers all over the world, we are very familiar with the manufacturing standards of various countries, such as European standards, American standards, Australian standards, and so on. We have also participated in the construction of many large-scale projects, such as recent 2022 Qatar World Cup camping construction.

Suzhou Stars Integrated Housing Co., Ltd. mainly has five types of products: folding container house, flat pack container house, detachable container house, modified shipping container (in development), and steel structure construction, which can be widely used in many fields, such as dormitory, camp, office, canteen, shop, toilet and shower, viewing pavilion, firefighting station, isolation ward, etc.
