

Strong Flat Pack Container House Top Bottom Integrated Packaging Container House Beautiful

Our Product Introduction

for more products please visit us on prefabricated-containerhouses.com

Basic Information

- Place of Origin: China
- Brand Name: INFINITE STARS
- Certification: CE/ISO9001/ISO45001/ISO14001
- Model Number: H
- Minimum Order Quantity: 7 Sets
- Packaging Details: One 40'high container for Marine insurance, can hold 6 sets
- Payment Terms: L/C, T/T
- Supply Ability: 20000 Set PER Month

Product Specification

- Name: Flat Pack Container House
- Fire Proof: A Grade
- Steel Grade: Q235B Or Q345B
- Customization: Available
- Life Span: 20 Years
- Window Size: 950 Mm*1200 Mm
- Certificates: ISO & CE
- Design: Modern
- Steel Door: Red, Green, Blue, White, Optional
- Main Material: Light Steel Frame & Sandwich Panel
- Size: 20ft, 40ft
- Hs Code: 9406900090
- Installation: Easy And Quick
- Earthquake Resistance: 7 Magnitude
- Length: 6058mm

Product Description

The Top Bottom Integrated Packaging Container House Is More Beautiful And Strong

We are proud to present our latest innovation in sustainable and practical housing solutions — the top-bottom integrated packaged container house. This revolutionary product not only offers unparalleled strength and stability, but also embodies a modern aesthetic that will transform your living space.

Aesthetic Appeal

The design of our top-bottom integrated container house is a testament to the fusion of form and function. The sleek lines and streamlined silhouette create a visually appealing structure that is sure to turn heads. The attention to detail in every aspect of the design, from the color palette to the finishing touches, ensures that your new home will complement any landscape and blend seamlessly into its surroundings.

Superior Durability

But aesthetics alone are not enough. Our top-bottom integrated design offers unbeatable structural integrity and durability. The integration of the top and bottom sections creates a solid foundation that can withstand even the harshest weather conditions. The high-grade materials used in the construction ensure that your new home will last for years, providing you with a safe and secure shelter for your family.

Sustainable Construction

In addition to its superior durability, our top-bottom integrated container house is also an environmentally friendly choice. By utilizing existing shipping containers, we are able to reduce waste and minimize the impact on natural resources. The repurposing of these containers not only reduces the demand for new construction materials, but also contributes to the recycling efforts that are crucial for our planet's future.

Easy Assembly and Transport

The top-bottom integrated design of our container house also makes it incredibly easy to assemble and transport. The sections are precision-engineered to fit together perfectly, allowing for a quick and efficient installation process. This not only saves you time and money, but also ensures that your new home is ready to move into as soon as possible.

In conclusion, our top-bottom integrated packaged container house offers the perfect combination of aesthetics, durability, and sustainability. With its sleek design, superior structural integrity, and eco-friendly construction, it is the ideal choice for those who are looking for a practical and stylish housing solution. We invite you to explore this revolutionary product and experience the difference that it can make in your life.

Standard Package Container House Datasheet		
Product Specification: 2.99-meter standard container	Length(mm)	6055(5840)
	Width(mm)	2430(2270)
	Height(mm)	2896(2550)
	Roof	organized drainage
	Number of floors	≤3
Design parameters	Service life	8-10 years
	Container weight	≤1.96T
	Ground live load	1.8KN/
	Roof live load	1.0KN/
	Wind load	0.8KN/
	Seismic degree	8
Structural	corner column	Galvanized cold rolled section steel, t=2.5mm, H2450X4 pcs material Q235B
	roof main beam	Galvanized cold rolled section steel, t=2.5mm, L5630X2pcs /L2130X2pcs material Q235B
	roof sub-beam	Galvanized square steel, t=1.8mm40*60X6 square tubes, radian t=1.8mm 15*30X3pcs square tube material Q235B
	floor main beam	Galvanized cold rolled section steel, t=2.5mm, L5630X2pcs /L2130X2pcs, material Q235B

	floor sub-beam	Galvanized square steel t=1.2mm, sub-beam X9pcs square tube material Q235B
	Angle piece hanging head	4.2mm steel galvanized stamping welding built-in bucket Angle piece X8
	Paint	Graphene Powder spraying (Electrostatic spraying)
Roof	Roof panel	0.5mm thick color steel plate 360 degree bite, color white gray
	Thermal insulation	100mm glass thermal insulation foam
	Ceiling plate	0.38 thick 831 ceiling
	downpipe	Four corners of downpipe 50PVC pipe X4pcs
Floor	Base	18mm thick fiber cement pressure plate, density $\geq 0.8\text{g/cm}^3$
Wall	Thickness	50mm thick color steel rock wool sandwich board; The outer and inner plates are made of 0.35mm galvanized color steel plate
	Heat preservation	75mm thick rock wool, bulk weight $\geq 90\text{kg/m}^3$, combustion performance is class A non-combustible
	Color	white gray PE coating
Door	Spec(mm)	Width X height =840*2035 high-end door
	Material	Steel door with paint
Window	Spec(mm)	Front window: width X height =1150*1100: width X height =1150*1100; (Standard) Hollow window anti-theft integrated window
	Frame	Plastic-steel
	Glass	single
