

Modern Flat Pack Container House Prefabricated Easy / Quick Installation

Our Product Introduction

for more products please visit us on prefabricated-containerhouses.com

Basic Information

- Place of Origin: China
- Brand Name: INFINITE STARS
- Certification: CE/ISO9001/ISO45001/ISO14001
- Model Number: H
- Minimum Order Quantity: 7 Sets
- Packaging Details: One 40 'high container for Marine insurance, can hold 6 sets
- Payment Terms: L/C, T/T
- Supply Ability: 20000 Set PER Month

Product Specification

- Name: Flat Pack Container House
- Fire Proof: A Grade
- Steel Grade: Q235B Or Q345B
- Customization: Available
- Life Span: 20 Years
- Window Size: 950 Mm*1200 Mm
- Certificates: ISO & CE
- Design: Modern
- Steel Door: Red, Green, Blue, White, Optional
- Main Material: Light Steel Frame & Sandwich Panel
- Size: 20ft, 40ft
- Hs Code: 9406900090
- Installation: Easy And Quick
- Earthquake Resistance: 7 Magnitude
- Length: 6050mm

Product Description

Packaged Container Houses With A Prefabricated Top And Bottom That Can Be Built Quickly Are Affordable

Standard Package Container House Datasheet		
Product Specification: 2.99-meter standard container	Length(mm)	6055(5840)
	Width(mm)	2430(2270)
	Height(mm)	2896(2550)
	Roof	organized drainage
	Number of floors	≤3
Design parameters	Service life	8-10 years
	Container weight	≤1.96T
	Ground live load	1.8KN/
	Roof live load	1.0KN/
	Wind load	0.8KN/
	Seismic degree	8
Structural	corner column	Galvanized cold rolled section steel, t=2.5mm, H2450X4 pcs material Q235B
	roof main beam	Galvanized cold rolled section steel, t=2.5mm, L5630X2pcs /L2130X2pcs material Q235B
	roof sub-beam	Galvanized square steel, t=1.8mm40*60X6 square tubes, radian t=1.8mm 15*30X3pcs square tube material Q235B
	floor main beam	Galvanized cold rolled section steel, t=2.5mm, L5630X2pcs /L2130X2pcs, material Q235B
	floor sub-beam	Galvanized square steel t=1.2mm, sub-beam X9pcs square tube material Q235B
	Angle piece hanging head	4.2mm steel galvanized stamping welding built-in bucket Angle piece X8
	Paint	Graphene Powder spraying (Electrostatic spraying)
Roof	Roof panel	0.5mm thick color steel plate 360 degree bite, color white gray
	Thermal insulation	100mm glass thermal insulation foam
	Ceiling plate	0.38 thick 831 ceiling
	downpipe	Four corners of downpipe 50PVC pipe X4pcs
Floor	Base	18mm thick fiber cement pressure plate, density ≥0.8g/cm³
Wall	Thickness	50mm thick color steel rock wool sandwich board; The outer and inner plates are made of 0.35mm galvanized color steel plate
	Heat preservation	75mm thick rock wool, bulk weight ≥90kg/m³, combustion performance is class A non-combustible
	Color	white gray PE coating
Door	Spec(mm)	Width X height =840*2035 high-end door
	Material	Steel door with paint
Window	Spec(mm)	Front window: width X height =1150*1100; width X height =1150*1100; (Standard) Hollow window anti-theft integrated window
	Frame	Plastic-steel
	Glass	single

In today's fast-paced world, we understand the need for a cost-effective yet durable housing solution that can be quickly assembled and dismantled. Our prefabricated container houses are designed to meet these demands, offering a practical and economical choice for a wide range of applications.

Key Features:

Rapid Deployment: Our container houses are prefabricated, allowing for quick assembly and disassembly. This significantly reduces construction time and labor costs, making them ideal for emergency relief efforts, temporary work sites, and other

temporary housing needs.

Durable Construction: Made from high-quality steel, our container houses are designed to withstand harsh weather conditions and provide a safe and secure living environment. The steel structure ensures excellent structural integrity and durability.

Cost-Effectiveness: By leveraging prefabrication techniques and the modular design of shipping containers, we are able to offer our container houses at a competitive price point. This makes them an economical choice for those seeking a temporary or semi-permanent housing solution.

Applications:

Our prefabricated container houses are suitable for a wide range of applications, including:

- Emergency relief efforts
- Temporary work sites
- Disaster recovery efforts
- Military and defense applications
- Remote locations and off-grid living

Versatility: Our container houses can be customized to meet specific needs and requirements. Whether you need a single unit or multiple units, we can configure the layout and amenities to suit your needs.

Environmental Friendliness: The use of shipping containers as building materials reduces the need for new construction materials, thereby minimizing waste and environmental impact. Our container houses are also designed to be recyclable, further enhancing their environmental credentials.
