Product Description

Premade Tiny Detachable Container House Checkpoint Temp Control Station

The detachable container house, when utilized as a checkpoint or temporary control station, exhibits several key features. Its modular design allows for rapid setup and disassembly, enabling swift deployment and relocation. Structural stability is maintained despite their detachable nature, ensuring durability and reliability. Thermal insulation and fire-resistant materials such as EPS fireproof sandwich panels provide excellent insulation and safety. Customizability allows for tailored dimensions, materials, and functions to meet specific needs. Wide applicability spans checkpoints, control stations, and various temporary facilities. In summary, the detachable container house offers speed, mobility, stability, safety, customization, versatility, and support as an ideal solution for checkpoints and temporary control stations.
