

Rugged Corrosion Resistant Flat Packed Container House Moveable Living Storage Space

Our Product Introduction

for more products please visit us on prefabricated-containerhouses.com

Basic Information

- Place of Origin: China
- Brand Name: INFINITE STARS
- Certification: CE/ISO9001/ISO45001/ISO14001
- Model Number: H
- Minimum Order Quantity: 7 Sets
- Packaging Details: One 40 'high container for Marine insurance, can hold 6 sets
- Payment Terms: L/C, T/T
- Supply Ability: 20000 Set PER Month

Product Specification

- Wall Panel Material: Rock Wool Sandwich Panel
- Wind Resistance: 120KM/H
- After Sales: Online Technical Support
- Characteristic: Anti Extrusion
- Window: PVC Sliding Window
- Keyword: Mobile Living Container House
- Gutter: PVC Gutter With Down Pipe
- Warranty: 15 Years
- Colour: Customized
- Port: Shanghai Port; NingBo Port
- Name: Flat Pack Container House
- MOQ: 7 PCS
- Highlight: **Rugged Flat Packed Container House, Corrosion Resistant Flat Packed Container House**

Product Description

Rugged Corrosion-Resistant Packed Container Houses Moveable Living Storage Space

When it comes to mobile living and storage solutions, our packaged container houses offer an unbeatable combination of strength, corrosion resistance, and versatility. These structures are designed to provide a safe, reliable, and long-lasting space for both living and storage needs.

Sturdy Construction

Built from heavy-gauge steel, our container houses are designed to withstand the toughest conditions. The robust frame and reinforced walls ensure stability and durability, even in harsh environments. This makes our container houses an excellent choice for remote locations, disaster relief areas, or any other scenario where a sturdy structure is crucial.

Corrosion Resistance

One of the key features of our container houses is their corrosion resistance. The steel used in our structures is treated with corrosion-resistant coatings and finishes, providing an additional layer of protection against rust and deterioration. This ensures that your container house will maintain its integrity and functionality for years to come, even in wet or salty environments.

Mobile Living Space

Our container houses are designed to provide a comfortable and functional living space on the move. They can be easily transported to any location, allowing you to establish a temporary home or workspace wherever you need it. The interior of our container houses can be customized to include bedrooms, living areas, kitchens, and bathrooms, providing all the amenities you need for a comfortable living experience.

Versatile Storage Solution

In addition to serving as a mobile living space, our container houses are also an excellent choice for storage. The large, open interior can be used to store tools, equipment, supplies, or any other items you need to keep secure and organized. The sturdy construction and corrosion resistance of our container houses ensure that your stored items will remain protected from the elements and damage.

In conclusion, our packaged container houses offer a superior combination of strength, corrosion resistance, and versatility. Whether you need a mobile living space or a reliable storage solution, our container houses are the perfect choice. Contact us today to learn more about how we can provide you with a sturdy and corrosion-resistant packaged container house for your specific needs.

| Standard Package Container House Datasheet | | |
|---|--------------------------|--|
| Product Specification: 2.99-meter standard container | Length(mm) | 6055(5840) |
| | Width(mm) | 2430(2270) |
| | Height(mm) | 2896(2550) |
| | Roof | organized drainage |
| | Number of floors | ≤3 |
| Design parameters | Service life | 8-10 years |
| | Container weight | ≤1.96T |
| | Ground live load | 1.8KN/ |
| | Roof live load | 1.0KN/ |
| | Wind load | 0.8KN/ |
| Structural | Seismic degree | 8 |
| | corner column | Galvanized cold rolled section steel, t=2.5mm, H2450X4 pcs material Q235B |
| | roof main beam | Galvanized cold rolled section steel, t=2.5mm, L5630X2pcs /L2130X2pcs material Q235B |
| | roof sub-beam | Galvanized square steel, t=1.8mm40*60X6 square tubes, radian t=1.8mm 15*30X3pcs square tube material Q235B |
| | floor main beam | Galvanized cold rolled section steel, t=2.5mm, L5630X2pcs /L2130X2pcs, material Q235B |
| | floor sub-beam | Galvanized square steel t=1.2mm, sub-beam X9pcs square tube material Q235B |
| | Angle piece hanging head | 4.2mm steel galvanized stamping welding built-in bucket Angle piece X8 |

| | | |
|--------|--------------------|---|
| | Paint | Graphene Powder spraying (Electrostatic spraying) |
| Roof | Roof panel | 0.5mm thick color steel plate 360 degree bite, color white gray |
| | Thermal insulation | 100mm glass thermal insulation foam |
| | Ceiling plate | 0.38 thick 831 ceiling |
| | downpipe | Four corners of downpipe 50PVC pipe X4pcs |
| Floor | Base | 18mm thick fiber cement pressure plate, density $\geq 0.8\text{g/cm}^3$ |
| Wall | Thickness | 50mm thick color steel rock wool sandwich board; The outer and inner plates are made of 0.35mm galvanized color steel plate |
| | Heat preservation | 75mm thick rock wool, bulk weight $\geq 90\text{kg/m}^3$, combustion performance is class A non-combustible |
| | Color | white gray PE coating |
| Door | Spec(mm) | Width X height =840*2035 high-end door |
| | Material | Steel door with paint |
| Window | Spec(mm) | Front window: width X height =1150*1100: width X height =1150*1100; (Standard) Hollow window anti-theft integrated window |
| | Frame | Plastic-steel |
| | Glass | single |
