

Bright Fire Packaging Container House Removable Fire Equipment Storage Space

Our Product Introduction

for more products please visit us on prefabricated-containerhouses.com

Basic Information

- Place of Origin: China
- Brand Name: INFINITE STARS
- Certification: CE/ISO9001/ISO45001/ISO14001
- Model Number: H
- Minimum Order Quantity: 7 Sets
- Packaging Details: One 40 'high container for Marine insurance, can hold 6 sets
- Payment Terms: L/C, T/T
- Supply Ability: 20000 Set PER Month

Product Specification

- Install Time: 4 Workers 3 Hours
- Electricity Sys: 2 Lights & 1 Switch
- Leadtime: 7-14 Days
- Wind Resistance: 120KM/H
- Application: Office Building, Office Buildings
- Size: 20ft/40ft
- Keyword: Portable Storage House/Office
- Span Life: 25 Years
- Indoor Design: As Customer Request
- Earthquake Resistance: Grade 8
- Ceiling Interior Board: Double Melamine Veneer Particleboard
- Use: Hotel, House, Office
- Floor: PVC Flooring
- Name: Flat Pack Container House
- MOQ: 7 PCS

Product Description

Bright Fire Packaging Container House Removable Fire Equipment Storage Space

Introducing our range of colorful and mobile fire-retardant packaged container houses, specifically designed to store and transport firefighting equipment safely and efficiently. These structures are not only visually appealing but also provide a robust and fire-resistant solution for your fire safety needs.

Vibrant Color Scheme

Our container houses are available in a range of vibrant colors, not only adding a visual appeal to any location but also making them easily identifiable in emergency situations. The bright colors help to increase the visibility of the storage facility, ensuring that firefighters and other emergency personnel can quickly locate the necessary equipment.

Fire-Retardant Materials

The construction of our container houses utilizes fire-retardant materials, providing an added layer of protection for the stored firefighting equipment. These materials are designed to resist the spread of fire, minimizing the risk of damage to the equipment and ensuring its availability in critical situations.

Mobile Storage Solution

Our container houses are designed for easy mobility, allowing you to transport and position them wherever needed. Whether you need to move them to a new location or simply rearrange them within your facility, our mobile container houses provide the flexibility you require. This ensures that your firefighting equipment is always accessible and ready for use.

Secure Storage

The interior of our container houses is designed to provide secure storage for your firefighting equipment. With reinforced walls and a robust locking system, you can rest assured that your equipment will remain safe and secure. This allows you to focus on other aspects of your fire safety plan, knowing that your equipment is well-protected.

In conclusion, our colorful and mobile fire-retardant packaged container houses are the ideal solution for storing and transporting firefighting equipment. With their vibrant color scheme, fire-retardant materials, and mobile design, they provide a safe, secure, and visually appealing storage facility for your fire safety needs. Contact us today to learn more about how we can help you enhance your fire safety capabilities with our range of fire-retardant container houses.

Standard Package Container House Datasheet		
Product Specification: 2.99-meter standard container	Length(mm)	6055(5840)
	Width(mm)	2430(2270)
	Height(mm)	2896(2550)
	Roof	organized drainage
	Number of floors	≤3
Design parameters	Service life	8-10 years
	Container weight	≤1.96T
	Ground live load	1.8KN/
	Roof live load	1.0KN/
	Wind load	0.8KN/
	Seismic degree	8
Structural	corner column	Galvanized cold rolled section steel, t=2.5mm, H2450X4 pcs material Q235B
	roof main beam	Galvanized cold rolled section steel, t=2.5mm, L5630X2pcs /L2130X2pcs material Q235B
	roof sub-beam	Galvanized square steel, t=1.8mm40*60X6 square tubes, radian t=1.8mm 15*30X3pcs square tube material Q235B
	floor main beam	Galvanized cold rolled section steel, t=2.5mm, L5630X2pcs /L2130X2pcs, material Q235B
	floor sub-beam	Galvanized square steel t=1.2mm, sub-beam X9pcs square tube material Q235B

	Angle piece hanging head	4.2mm steel galvanized stamping welding built-in bucket Angle piece X8
	Paint	Graphene Powder spraying (Electrostatic spraying)
Roof	Roof panel	0.5mm thick color steel plate 360 degree bite, color white gray
	Thermal insulation	100mm glass thermal insulation foam
	Ceiling plate	0.38 thick 831 ceiling
	downpipe	Four corners of downpipe 50PVC pipe X4pcs
Floor	Base	18mm thick fiber cement pressure plate, density $\geq 0.8\text{g/cm}^3$
Wall	Thickness	50mm thick color steel rock wool sandwich board; The outer and inner plates are made of 0.35mm galvanized color steel plate
	Heat preservation	75mm thick rock wool, bulk weight $\geq 90\text{kg/m}^3$, combustion performance is class A non-combustible
	Color	white gray PE coating
Door	Spec(mm)	Width X height =840*2035 high-end door
	Material	Steel door with paint
Window	Spec(mm)	Front window: width X height =1150*1100: width X height =1150*1100; (Standard) Hollow window anti-theft integrated window
	Frame	Plastic-steel
	Glass	single
