

One Piece Flat Pack Container House Oversized Space For Office / Living

Our Product Introduction

for more products please visit us on prefabricated-containerhouses.com

Basic Information

- Place of Origin: China
- Brand Name: INFINITE STARS
- Certification: CE/ISO9001/ISO45001/ISO14001
- Model Number: H
- Minimum Order Quantity: 7 Sets
- Packaging Details: One 40 'high container for Marine insurance, can hold 6 sets
- Payment Terms: L/C, T/T
- Supply Ability: 20000 Set PER Month

Product Specification

- Install Time: 4 Workers 6 Hours
- Electricity Sys: 4 Lights & 2 Switch
- Leadtime: 7-14 Days
- Wind Resistance: 120KM/H
- Application: Office Building, Office Buildings
- Size: 20ft/40ft
- Keyword: Portable Storage House/Office
- Span Life: 25 Years
- Indoor Design: As Customer Request
- Earthquake Resistance: Grade 8
- Ceiling Interior Board: Double Melamine Veneer Particleboard
- Use: Hotel, House, Office
- Floor: PVC Flooring
- Name: Flat Pack Container House
- MOQ: 7 PCS

Product Description

One Piece Package Container House Oversized Space For Office Or Living

Modular container complexes, commonly known as connected and combined shipping container houses, offer an innovative and versatile solution for both office and living spaces. These structures, utilizing standardized shipping containers as their fundamental building blocks, provide an expansive and customizable environment that meets the demands of modern living and working.

Key Features and Benefits:

Versatility and Customization:

Modular container complexes can be designed and assembled to suit a wide range of applications, from offices and workshops to living quarters and recreational spaces.

Their modular design allows for easy modification, expansion, and reconfiguration, ensuring maximum flexibility and adaptability.

Oversized Spaces:

By connecting multiple shipping containers, it is possible to create spacious, open-plan areas that provide ample room for work, living, and entertainment.

This allows for the efficient utilization of space, maximizing the functionality and comfort of the complex.

Strength and Durability:

Shipping containers are designed to withstand harsh environmental conditions and rigorous transportation.

As a result, modular container complexes are highly durable, able to withstand extreme weather conditions and maintain structural integrity over extended periods.

Rapid Deployment:

Standardized shipping container sizes ensure quick and efficient assembly, minimizing construction time and costs.

This makes modular container complexes an ideal solution for temporary or emergency housing, as well as for rapid expansion of office or living space.

Eco-Friendliness:

Modular container complexes utilize recycled shipping containers, reducing the demand for new building materials and minimizing waste.

They can also be easily dismantled and relocated, minimizing the impact on the environment.

Cost-Effectiveness:

The use of standardized shipping containers as building blocks allows for cost-effective construction, reducing overall project costs.

The modular design also enables efficient material utilization, further enhancing the cost-effectiveness of modular container complexes.

Standard Package Container House Datasheet		
Product Specification: 2.99-meter standard container	Length(mm)	6055(5840)
	Width(mm)	2430(2270)
	Height(mm)	2896(2550)
	Roof	organized drainage
	Number of floors	≤3
Design parameters	Service life	8-10 years
	Container weight	≤1.96T
	Ground live load	1.8KN/
	Roof live load	1.0KN/
	Wind load	0.8KN/
	Seismic degree	8
	corner column	Galvanized cold rolled section steel, t=2.5mm, H2450X4 pcs material Q235B
	roof main beam	Galvanized cold rolled section steel, t=2.5mm, L5630X2pcs /L2130X2pcs material Q235B

Structural	roof sub-beam	Galvanized square steel, t=1.8mm40*60X6 square tubes, radian t=1.8mm 15*30X3pcs square tube material Q235B
	floor main beam	Galvanized cold rolled section steel, t=2.5mm, L5630X2pcs /L2130X2pcs, material Q235B
	floor sub-beam	Galvanized square steel t=1.2mm, sub-beam X9pcs square tube material Q235B
	Angle piece hanging head	4.2mm steel galvanized stamping welding built-in bucket Angle piece X8
	Paint	Graphene Powder spraying (Electrostatic spraying)
Roof	Roof panel	0.5mm thick color steel plate 360 degree bite, color white gray
	Thermal insulation	100mm glass thermal insulation foam
	Ceiling plate	0.38 thick 831 ceiling
	downpipe	Four corners of downpipe 50PVC pipe X4pcs
Floor	Base	18mm thick fiber cement pressure plate, density $\geq 0.8\text{g/cm}^3$
Wall	Thickness	50mm thick color steel rock wool sandwich board; The outer and inner plates are made of 0.35mm galvanized color steel plate
	Heat preservation	75mm thick rock wool, bulk weight $\geq 90\text{kg/m}^3$, combustion performance is class A non-combustible
	Color	white gray PE coating
Door	Spec(mm)	Width X height =840*2035 high-end door
	Material	Steel door with paint
Window	Spec(mm)	Front window: width X height =1150*1100: width X height =1150*1100; (Standard) Hollow window anti-theft integrated window
	Frame	Plastic-steel
	Glass	single
