#### Basic Information

- Place of Origin: China
- Brand Name: INFINITE STARS
- Certification: CE/ISO9001/ISO45001/ISO14001
- Model Number: H
- Minimum Order Quantity: 7 Sets
- Packaging Details: One 40 'high container for Marine insurance, can hold 6 sets
- Payment Terms: L/C, T/T
- Supply Ability: 20000 Set PER Month

#### Product Specification

- Name: Flat Pack Container House
- Connection: Screws,Bolts
- Height: 2896mm
- After Sales: Online Technical Support
- Transport Way: In Parts
- Frame: Steel
- Keyword: Mobile Living Container House
- Steel Frame: Galvanized Light Steel Frame
- Leadtime: 7-14 Days
- Wind: Up To 200km/h
- MOQ: 7 PCS
- Highlight: **Flat Pack Container House Building, Sustainable Flat Pack Container House, Container Office House**

## Product Description

### Modern Design Office Building Packaging Container House Beautiful Fashion

Step into the future of sustainable and innovative office spaces with our prefabricated container office buildings. Combining the robustness of shipping containers with modern design aesthetics, our products offer a unique and exciting workspace solution for today's businesses.

### Designed with Purpose

Our container offices are designed with functionality and efficiency at their core. Each container is carefully crafted to maximize space utilization while maintaining a sleek and contemporary look. The modular design allows for easy customization, ensuring your office space perfectly aligns with your business needs.

### Durable & Sustainable

Built from recycled shipping containers, our offices are not only environmentally friendly but also highly durable. The steel construction offers superior resistance to wear and tear, ensuring your office space will stand the test of time. Additionally, the containers' inherent insulation properties provide excellent thermal efficiency, reducing energy costs and enhancing comfort.

### Versatile & Customizable

With a wide range of customizable options, our container offices can be tailored to suit any business or industry. From open-plan offices to private meeting rooms, we can create a workspace that reflects your brand and culture. Our team of expert designers will work with you to bring your vision to life, delivering a truly unique office environment.

### Easy to Install & Relocate

One of the key benefits of our prefabricated container offices is their ease of installation and relocation. The containers are fully equipped and ready to use upon delivery, significantly reducing construction time and costs. Additionally, their modular design allows for quick and easy disassembly and relocation, making them ideal for temporary or mobile workspaces.

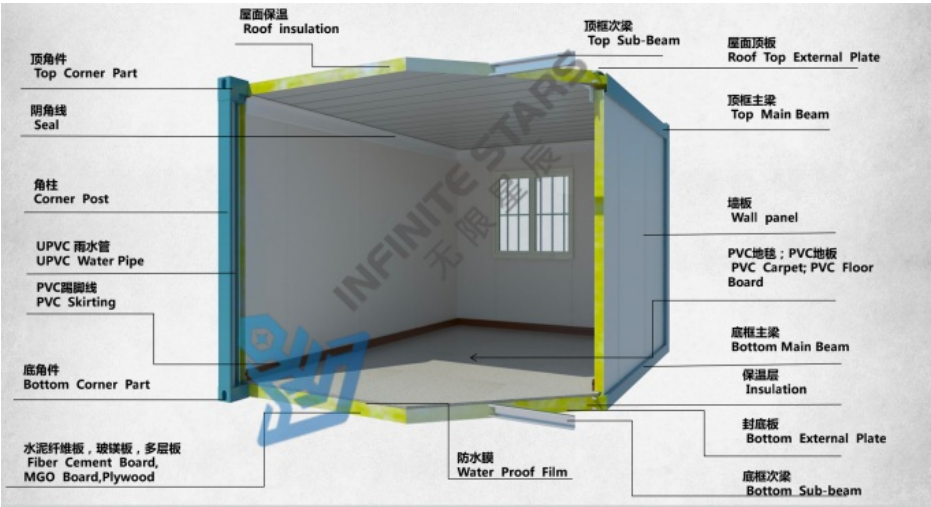

### Stylish & Modern

Our container offices are designed to complement any urban or industrial landscape. The sleek lines and contemporary finishes create a modern and stylish workspace that will impress your clients and employees. Whether you're looking for a sleek glass facade or a more industrial look, we have the perfect solution for you.

Embrace the future of office design with our prefabricated container office buildings. Contact us today to learn more about how we can help transform your workspace into a stylish, functional, and sustainable hub for your business.

	Roof	organized drainage
	Number of floors	≤3
Design parameters	Service life	8-10 years
	Container weight	≤1.96T
	Ground live load	1.8KN/
	Roof live load	1.0KN/
	Wind load	0.8KN/
	Seismic degree	8
Structural	corner column	Galvanized cold rolled section steel, t=2.5mm, H2450X4 pcs material Q235B
	roof main beam	Galvanized cold rolled section steel, t=2.5mm, L5630X2pcs /L2130X2pcs material Q235B
	roof sub-beam	Galvanized square steel, t=1.8mm40*60X6 square tubes, radian t=1.8mm 15*30X3pcs square tube material Q235B
	floor main beam	Galvanized cold rolled section steel, t=2.5mm, L5630X2pcs /L2130X2pcs, material Q235B

	floor sub-beam	Galvanized square steel t=1.2mm, sub-beam X9pcs square tube material Q235B
	Angle piece hanging head	4.2mm steel galvanized stamping welding built-in bucket Angle piece X8
	Paint	Graphene Powder spraying (Electrostatic spraying)
Roof	Roof panel	0.5mm thick color steel plate 360 degree bite, color white gray
	Thermal insulation	100mm glass thermal insulation foam
	Ceiling plate	0.38 thick 831 ceiling
	downpipe	Four corners of downpipe 50PVC pipe X4pcs
Floor	Base	18mm thick fiber cement pressure plate, density $\geq 0.8\text{g/cm}^3$
Wall	Thickness	50mm thick color steel rock wool sandwich board; The outer and inner plates are made of 0.35mm galvanized color steel plate
	Heat preservation	75mm thick rock wool, bulk weight $\geq 90\text{kg/m}^3$ , combustion performance is class A non-combustible
	Color	white gray PE coating
Door	Spec(mm)	Width X height =840*2035 high-end door
	Material	Steel door with paint
Window	Spec(mm)	Front window: width X height =1150*1100: width X height =1150*1100; (Standard) Hollow window anti-theft integrated window
	Frame	Plastic-steel
	Glass	single
