

Corrugated Sandwich Panel Color Steel Roof Tile Polyurethane Customized

Our Product Introduction

for more products please visit us on prefabricated-containerhouses.com

Basic Information

- Place of Origin: china
- Brand Name: INFINITE STARS
- Certification: CE/ISO9001/ISO45001/ISO14001
- Model Number: B
- Minimum Order Quantity: 7 Sets
- Packaging Details: Each 40 foot high cabinet can hold 1200 square meters
- Payment Terms: L/C, T/T
- Supply Ability: 100000 /day

Product Specification

- Application: Roofing, Wall Cladding, Partition Wall, Cold Storage, Etc.
- Color: Customized
- Surface Treatment: PE/PVDF Coating
- Width: 1000mm
- Length: Customized
- Water Absorption: $\leq 2\%$
- Thickness: 50mm
- Material: Color Steel
- Load Bearing Capacity: $\geq 0.5\text{kN/m}^2$
- Thermal Conductivity: 0.022 W/mK
- MOQ: 7 PCS
- Highlight: Corrugated Sandwich Panel Color Steel, Corrugated Sandwich Panel Polyurethane, Color Steel Roof Tile Customized

Product Description

Constructed from high-quality steel, these panels are designed to withstand the harshest weather conditions, ensuring your roof remains strong and reliable for decades. Their vibrant colors and sleek finishes not only enhance the aesthetic appeal of your building, but also provide a long-lasting and fade-resistant surface.

The lightweight yet sturdy design of Color Steel Roofing Panels makes installation a breeze, reducing labor costs and project timelines. The panels' overlapping design creates a secure and leak-free roof, while their corrosion-resistant coating ensures protection against rust and other environmental factors.

Moreover, Color Steel Roofing Panels are environmentally friendly, as they are made from recyclable materials. This reduces waste and landfill usage, making them a sustainable roofing option. Their energy-efficient properties also help reduce heating and cooling costs, further contributing to their environmental benefits.

In summary, Color Steel Roofing Panels are an excellent choice for roofing projects of all sizes and styles. Their durability, beauty, and environmental benefits make them a top-notch roofing solution that will enhance the value and appeal of your property.

Specification	Description
Material	High-grade steel alloy with corrosion-resistant coating
Colors	Available in a wide range of standard and custom colors
Finish	Smooth, matte, or textured finishes available
Thickness	0.4mm to 0.8mm (customizable)
Width	Standard widths of 1000mm, 1200mm, and 1500mm (customizable)
Length	Panels can be cut to specific lengths upon request
Coating Type	Polyester, PVDF, or other advanced coatings for superior durability
Fire Rating	Meets or exceeds local fire rating standards
Wind Resistance	Classified for various wind load ratings (depending on thickness and installation)
Thermal Resistance	Reflects heat, reducing solar absorption and keeping buildings cooler
UV Resistance	Coating provides excellent UV protection for long-lasting color
Installation	Panels are designed for easy installation with overlapping or side-lap joints
Accessories	Includes clips, fasteners, and other accessories for secure installation

Specification	Description
Warranty	Standard warranty of 10-20 years, depending on coating and usage

Company introduction

As a wholly-owned subsidiary of Wujiang Saima (established in 2005), Suzhou Stars Integrated Housing Co., Ltd. focuses on foreign trade. As one of the most professional prefabricated house manufacturers in south-east China, we provide customers with all kinds of integrated housing solutions.

Equipped with complete production lines, including sandwich panel production machines and steel structure production line, with 5000 square meter workshop and professional staff, we already built long-term business with domestic giants like CSCEC and CREC. Also, based on our export experience in the past years, we are furthering our steps to global customers with best product and service.

As a supplier to overseas customers all over the world, we are very familiar with the manufacturing standards of various countries, such as European standards, American standards, Australian standards, and so on. We have also participated in the construction of many large-scale projects, such as recent 2022 Qatar World Cup camping construction.
