

Shop Storage Luxury Prefab Houses , Folding Prefabricated Modular Bathroom

Our Product Introduction

for more products please visit us on prefabricated-containerhouses.com

Basic Information

- Place of Origin: china
- Brand Name: INFINITE STARS
- Model Number: H
- Minimum Order Quantity: 7 Sets
- Price: dollar1300 /1set
- Delivery Time: 2-3work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 200set/day

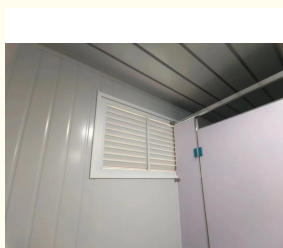

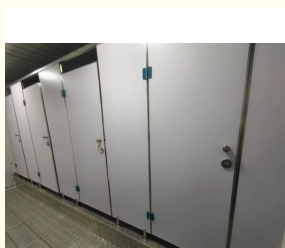

Product Specification

- Exterior: Customizable
- Durability: High
- Cost: Affordable
- Design: Modern/Traditional/Contemporary
- Flooring: Hardwood/Laminate/Tile/concrete
- Interior: Customizable
- Transportation: Easy To Move
- Roofing: Metal
- Insulation: Energy Efficient
- Windows: Double Glazed
- Doors: Solid Wood/Steel
- Size: Customizable
- Installation: Quick And Easy
- Assembly: Prefabricated
- Material: Steel/wood/concrete

Product Description

Prefab Mobile Luxury Houses Shop Storage Container Prefabricated Folding Bathroom

Our Modular Prefabricated Toilets are engineered with a focus on efficiency, versatility, and sustainability. By employing a modular design approach, each toilet unit is constructed using prefabricated components that can be easily assembled and customized to suit varying spatial constraints and user requirements. This modular construction method not only accelerates the deployment process but also ensures consistency in quality across different installations.

In the realm of sanitation and hygiene solutions, prefabricated portable steel structure buildings offer innovative options for all-scene modular toilets and mobile shower facilities. These buildings are designed to be easily transported and assembled, providing convenient and hygienic solutions for various settings and scenarios.

All-Scene Modular Toilets:

Prefabricated portable steel structure buildings serve as versatile all-scene modular toilets, suitable for deployment in diverse environments such as outdoor events, construction sites, disaster relief areas, and public spaces. These modular toilets offer essential sanitation facilities with customizable layouts and configurations to meet specific requirements.

Mobile Shower Facilities:

For situations requiring mobile shower facilities, prefabricated portable steel structure buildings provide efficient and hygienic solutions. Whether for outdoor events, temporary camps, or emergency response operations, these buildings offer convenient showering amenities with the flexibility to be easily transported and deployed as needed.

Key Features and Benefits:

Modularity: Prefabricated portable steel structure buildings feature modular designs that allow for easy customization and adaptation to different usage scenarios and spatial constraints.

Portability: These buildings are designed for easy transportation using standard shipping methods, making them suitable for deployment in remote or temporary locations.

Hygiene and Convenience: All-scene modular toilets and mobile shower facilities offer essential sanitation amenities, including toilets, sinks, showers, and waste disposal systems, ensuring hygiene and convenience for users.

Quick Assembly: With their prefabricated components and simple assembly process, these buildings can be quickly set up on-site without the need for extensive construction or specialized equipment.

Durability: Constructed with sturdy steel frames and durable materials, these buildings offer reliability and longevity, even in challenging outdoor environments.

Compliance: Prefabricated portable steel structure buildings are designed to meet relevant sanitation standards and regulations, ensuring compliance with health and safety requirements.

Applications:

Outdoor events and festivals

Construction sites and work camps

Disaster relief areas and emergency shelters

Public parks and recreational facilities

Military operations and field deployments

Conclusion:

Prefabricated portable steel structure buildings provide efficient and hygienic solutions for all-scene modular toilets and mobile shower facilities. With their modularity, portability, and durability, these buildings offer convenient sanitation amenities for various settings and scenarios, ensuring the well-being and comfort of users in diverse environments.

Feature	Description
Versatility	Versatile modular design allows for use as toilets, showers, or combined facilities depending on the requirements.
Portability	Lightweight steel structure enables easy transportation to various locations, including remote or temporary sites.
Durability	Robust steel construction ensures long-lasting performance, even in challenging environments and frequent use.
Hygiene	Designed with sanitation and hygiene in mind, featuring easy-to-clean surfaces and efficient waste management systems.
Quick Installation	Prefabricated components allow for rapid assembly on-site, minimizing downtime and disruption to operations.
Weather Resistance	Resilient to adverse weather conditions, providing reliable facilities for users regardless of outdoor elements.
Customization	Customizable options available for size, layout, and additional features to meet specific project requirements.
Compliance	Compliant with relevant sanitation and building codes, ensuring safety and regulatory adherence in various locations.

Company introduction

As a wholly-owned subsidiary of Wujiang Saima (established in 2005), Suzhou Stars Integrated Housing Co., Ltd. focuses on foreign trade. As one of the most professional prefabricated house manufacturers in south-east China, we provide customers with all kinds of integrated housing solutions.

Equipped with complete production lines, including sandwich panel production machines and steel structure production line, with 5000 square meter workshop and professional staff, we already built long-term business with domestic giants like CSCEC and CREC. Also, based on our export experience in the past years, we are furthering our steps to global customers with best product and service.

As a supplier to overseas customers all over the world, we are very familiar with the manufacturing standards of various countries, such as European standards, American standards, Australian standards, and so on. We have also participated in the construction of many large-scale projects, such as recent 2022 Qatar World Cup camping construction.
