

Stylish Coffee Shop Modified Shipping Container Innovative Space Personalization

Our Product Introduction

for more products please visit us on prefabricated-containerhouses.com

Basic Information

- Place of Origin: CHINA
- Brand Name: INFINITE STARS
- Certification: CE, ISO9001, ISO45001, ISO14001
- Model Number: S06
- Minimum Order Quantity: 7 Sets
- Price: USD 1200~1500/Set
- Packaging Details: one 20-foot shipping container can carry 7 sets
- Delivery Time: 5-8 work days
- Payment Terms: L/C, T/T
- Supply Ability: 2000 set per month

Product Specification

- Size: 20ft/40ft
- Windows: Optional
- Electrical System: Lighting, Outlets, And Circuit Breaker
- Lighting: LED Lights
- Material: Steel
- Locking System: Padlock
- Container: New Or Old
- Corner Fittings: ISO Standard
- Roof: Sandwich Panel+ Decoration Ceiling
- Main Materials: Shipping Container
- Security Features: Locking System, Reinforced Doors
- MOQ: 7 PCS
- Highlight: **Stylish Modified Shipping Container, Modified Shipping Container Coffee Shop, Coffee Shop Shipping Container Modified**

Product Description

Stylish Coffee Shops Modified Shipping Container Innovative Space Personalization

Description

Environmental Friendliness: Utilizing used shipping containers reduces resource consumption and environmental pollution.

Cost Efficiency: Compared to newly constructed structures, the use of used shipping containers significantly lowers costs.

Quick and Convenient: With pre-existing container structures, the modification process is fast and efficient.

Safe and Durable: Made from high-strength steel, these containers offer fire, theft, and water resistance, ensuring excellent durability.

Flexible and Versatile: Customizable modifications cater to various needs, making them suitable for multiple applications.

Category	Specification
Container Selection:	Standard ISO shipping containers: 20 feet or 40 feet in length.
	High-quality steel construction with corrugated walls.
	Wind and watertight condition to ensure structural integrity.
Structural Modifications:	Reinforcement of corners and side walls for structural stability.
	Cutouts for doors, windows, ventilation, and utility access as per design requirements.
	Welding of additional support beams for load-bearing purposes.
Insulation:	Installation of insulation material to regulate temperature and improve energy efficiency.
	Options include spray foam insulation, rigid foam boards, or mineral wool insulation.
	Compliance with local climate conditions and insulation standards.
Electrical Wiring:	Installation of electrical wiring for lighting, outlets, and appliances.
	Adherence to electrical codes and safety standards.
	Placement of electrical panels and junction boxes in accessible locations.
Plumbing:	Installation of plumbing systems for sinks, toilets, showers, and other fixtures.
	Use of durable piping materials suitable for the intended application.
	Proper drainage and venting to prevent water damage and odors.
HVAC Systems:	Provision for heating, ventilation, and air conditioning (HVAC) systems.
	Selection of HVAC units based on container size and intended use.
	Placement of vents and ductwork for optimal airflow and climate control.
Doors and Windows:	Installation of commercial-grade doors and windows for security and functionality.
	Sealing of openings to maintain weatherproofing and insulation.
	Consideration of customer preferences for style and placement.
Safety Features:	Implementation of safety features including fire extinguishers, smoke detectors, and emergency exits.
	Compliance with building codes and regulations regarding occupancy and egress.
	Provision for security measures such as locks, alarms, and surveillance systems.
Quality Assurance and Testing:	Inspection of all modifications and installations to ensure compliance with specifications.
	Testing of electrical, plumbing, and HVAC systems for functionality and safety.
	Documentation of workmanship and materials for quality control purposes.

Company introduction

As a wholly-owned subsidiary of Wujiang Saima (established in 2005), Suzhou Stars Integrated Housing Co., Ltd. focuses on foreign trade. As one of the most professional prefabricated house manufacturers in south-east China, we provide customers with all kinds of integrated housing solutions.

Equipped with complete production lines, including sandwich panel production machines and steel structure production line, with 5000 square meter workshop and professional staff, we already built long-term business with domestic giants like CSCEC and CREC. Also, based on our export experience in the past years, we are furthering our steps to global customers with best product and service.

As a supplier to overseas customers all over the world, we are very familiar with the manufacturing standards of various countries, such as European standards, American standards, Australian standards, and so on. We have also participated in the construction of many large-scale projects, such as recent 2022 Qatar World Cup camping construction.
