

Sustainable Prefab House Villa Waterproof Steel Frame Prefab Homes

Our Product Introduction

for more products please visit us on prefabricated-containerhouses.com

Basic Information

- Place of Origin: china
- Brand Name: INFINITE STARS
- Certification: CE,ISO9001,ISO45001,ISO14001
- Model Number: H03
- Minimum Order Quantity: 7 Sets
- Price: dollar50000 /1set
- Packaging Details: Tailored to individual preferences
- Delivery Time: 5-8work days
- Payment Terms: L/C, T/T
- Supply Ability: 200set/day

Product Specification

- Foundation: H Beam And Light Steel Foundation
- Main Structure: Galvanized Steel Frame
- Keyword: Steel Frame Prefab Houses
- Water Proof: Yes
- Insulation: EPS/PU/ROCK WOOL
- Material: Steel
- Resistance: 8 Degree Anti-Earthquake
- Purpose: Retirement Center Or Hotel
- Wall: EPS/PU/ROCK WOOL Sandwich Panel
- Application: Steel Fabricated House,Family Use
- Light Steel Structure: AS1397 G550 Z275
- Exterior Wall Cladding: 50mm ALC Panel
- Installation: Quick And Easy
- Cutting Power: 2.2KW
- Roof: Sloping

Product Description

Sustainability Energy Efficiency Prefab Steel Structure House Villa Durability

Description

Sustainability and Energy Efficiency:These villas prioritize sustainability, incorporating energy-saving materials and advanced techniques.By utilizing efficient insulation and modern heating and cooling systems, they significantly reduce energy consumption, contributing to a lower carbon footprint.

Rapid Construction:The use of prefabricated components allows for a much faster construction process.Components are manufactured in a controlled factory environment and then assembled on-site, significantly reducing construction timeframes compared to traditional building methods.

Structural Integrity and Durability:Light steel frameworks are designed to be lightweight yet remarkably strong and durable.These structures can withstand high winds and are resistant to seismic activity, ensuring the safety of the occupants.The steel used is corrosion-resistant, enhancing the longevity of the building.

Design Versatility:Prefabricated light steel villas offer exceptional design flexibility.They can be customized to suit individual tastes, needs, and site-specific requirements.This versatility allows for a personalized living space that caters to the occupant's lifestyle and preferences.

Cost-Effectiveness and Material Efficiency:The lightweight nature of the steel structure reduces material costs and transportation expenses.Prefabrication also minimizes waste during the construction process, further contributing to cost savings and environmental responsibility.

Feature	Description
Customization	Tailored to individual preferences, allowing campers to personalize their outdoor retreat with custom features.
Beauty	Designed with aesthetics in mind, featuring a charming and inviting appearance that enhances the camping experience.
Convenience	Engineered for quick and easy installation, enabling campers to set up their cabin effortlessly at the campsite.
Durability	Constructed with high-quality steel materials, ensuring durability and weather resistance for long-lasting performance.
Comfort	Equipped with modern amenities and comfortable furnishings, providing campers with a cozy and relaxing living space.
Versatility	Suitable for various camping locations, including campgrounds, national parks, wilderness areas, and private campsites.
Sustainability	Built with eco-friendly materials and energy-efficient features, promoting sustainable camping practices and eco-friendly living.

Company introduction

As a wholly-owned subsidiary of Wujiang Saima (established in 2005), Suzhou Stars Integrated Housing Co., Ltd. focuses on foreign trade. As one of the most professional prefabricated house manufacturers in south-east China, we provide customers with all kinds of integrated housing solutions.

Equipped with complete production lines, including sandwich panel production machines and steel structure production line, with 5000 square meter workshop and professional staff, we already built long-term business with domestic giants like CSCEC

and CREC. Also, based on our export experience in the past years, we are furthering our steps to global customers with best product and service.

As a supplier to overseas customers all over the world, we are very familiar with the manufacturing standards of various countries, such as European standards, American standards, Australian standards, and so on. We have also participated in the construction of many large-scale projects, such as recent 2022 Qatar World Cup camping construction.
