

Eco Friendly Versatile Prefab Steel House Soundproof With Excellent Insulation

Our Product Introduction

for more products please visit us on prefabricated-containerhouses.com

Basic Information

- Place of Origin: china
- Brand Name: INFINITE STARS
- Certification: CE,ISO9001,ISO45001,ISO14001
- Model Number: H07
- Minimum Order Quantity: 7 Sets
- Price: dollar50000 /1set
- Packaging Details: Tailored to individual preferences
- Delivery Time: 5-8work days
- Payment Terms: L/C, T/T
- Supply Ability: 200set/day

Product Specification

- Installation: Quick And Easy
- Roof: Sloping
- Design: Modern
- Insulation: Excellent
- Maintenance: Low
- Fire Resistance: High
- Door: Steel
- Customization: Available
- Dimension: Customized
- Durability: High
- Other Fittings: Toilet,washbasin,shower,kitchen Etc.
- Bathroom: Sink, Toilet, Bathtub (if Any), Shower
- Used: Family
- Product_Feature: Soundproof
- Product Application: Residential House

Product Description

Strength Durability Prefab Light Steel Villa House Versatile Design Options

Description

Eco-Friendly and Efficient: These villas prioritize sustainability, utilizing energy-efficient technologies that minimize waste and environmental impact. The lightweight steel construction allows for easier recycling, reducing the overall carbon footprint.

Quick and Efficient Construction: Prefabrication means faster assembly on-site, significantly reducing construction time. This means you can move into your new home sooner, with less disruption to your daily routine.

Strength and Durability: Despite their lightweight nature, light steel villas are incredibly strong and durable. They can withstand harsh weather conditions and provide a safe and secure living environment for years to come.

Versatile Design Options: Light steel villas offer flexibility in design, allowing for customization to suit your specific needs and preferences. Whether you want a traditional or contemporary look, there are endless possibilities.

Cost-Effective Solution: While the initial investment may be slightly higher, the long-term benefits of light steel villas make them a cost-effective solution. Lower maintenance costs, energy savings, and increased durability all contribute to the overall value of these homes.

Feature	Description
Customization	Tailored to individual preferences, allowing campers to personalize their outdoor retreat with custom features.
Beauty	Designed with aesthetics in mind, featuring a charming and inviting appearance that enhances the camping experience.
Convenience	Engineered for quick and easy installation, enabling campers to set up their cabin effortlessly at the campsite.
Durability	Constructed with high-quality steel materials, ensuring durability and weather resistance for long-lasting performance.
Comfort	Equipped with modern amenities and comfortable furnishings, providing campers with a cozy and relaxing living space.
Versatility	Suitable for various camping locations, including campgrounds, national parks, wilderness areas, and private campsites.
Sustainability	Built with eco-friendly materials and energy-efficient features, promoting sustainable camping practices and eco-friendly living.

Company introduction

As a wholly-owned subsidiary of Wujiang Saima (established in 2005), Suzhou Stars Integrated Housing Co., Ltd. focuses on foreign trade. As one of the most professional prefabricated house manufacturers in south-east China, we provide customers with all kinds of integrated housing solutions.

Equipped with complete production lines, including sandwich panel production machines and steel structure production line, with 5000 square meter workshop and professional staff, we already built long-term business with domestic giants like CSCEC and CREC. Also, based on our export experience in the past years, we are furthering our steps to global customers with best

product and service.

As a supplier to overseas customers all over the world, we are very familiar with the manufacturing standards of various countries, such as European standards, American standards, Australian standards, and so on. We have also participated in the construction of many large-scale projects, such as recent 2022 Qatar World Cup camping construction.
