

Weather Resistant Prefab Steel House Customized Low Maintenance

Our Product Introduction

for more products please visit us on prefabricated-containerhouses.com

Basic Information

- Place of Origin: china
- Brand Name: INFINTE STARS
- Certification: CE,ISO9001,ISO45001,ISO14001
- Model Number: H08
- Minimum Order Quantity: 7 Sets
- Price: dollar50000 /1set
- Packaging Details: Tailored to individual preferences
- Delivery Time: 5-8work days
- Payment Terms: L/C, T/T
- Supply Ability: 200set/day

Product Specification

- Installation: Quick And Easy
- Design: Modern
- Maintenance: Low
- Fire Resistance: High
- Door: Steel
- Dimension: Customized
- Durability: High
- Keyword: Wooden Cabins
- Manufacturer: Yes
- Customization: Available
- Weather Resistance: Strong
- Application: Villa House
- Exterior Wall Color: Options
- MOQ: 7 PCS
- Highlight: **Weather Resistant Prefab Steel House,**

Product Description

Long-Lasting Durability Prefab Light Steel Villa House Versatile Design Options

Description

Environmentally Responsible: Light steel villas prioritize sustainability, utilizing energy-efficient technologies and recyclable materials. This not only reduces energy consumption but also minimizes the impact on the environment. **Quick and Efficient Construction:** Compared to traditional methods, prefabricated light steel villas offer a significantly faster construction process. This expedited timeline allows for earlier occupancy and faster returns on investment. **Superior Strength-to-Weight Ratio:** Despite their lightweight nature, light steel villas possess remarkable strength and stability. This combination ensures the durability of the structure while minimizing the need for heavy foundations. **Long-Lasting Durability:** Light steel villas are designed to last, withstanding the test of time and various weather conditions. Their robust construction and quality materials ensure that they will provide a comfortable and secure home for years to come. **Versatile Design Options:** The modular nature of light steel villas allows for a wide range of design possibilities. Whether it's a modern, minimalistic look or a traditional, rustic style, these villas can be customized to meet individual tastes and preferences.

Feature	Description
Customization	Tailored to individual preferences, allowing campers to personalize their outdoor retreat with custom features.
Beauty	Designed with aesthetics in mind, featuring a charming and inviting appearance that enhances the camping experience.
Convenience	Engineered for quick and easy installation, enabling campers to set up their cabin effortlessly at the campsite.
Durability	Constructed with high-quality steel materials, ensuring durability and weather resistance for long-lasting performance.
Comfort	Equipped with modern amenities and comfortable furnishings, providing campers with a cozy and relaxing living space.
Versatility	Suitable for various camping locations, including campgrounds, national parks, wilderness areas, and private campsites.
Sustainability	Built with eco-friendly materials and energy-efficient features, promoting sustainable camping practices and eco-friendly living.

Company introduction

As a wholly-owned subsidiary of Wujiang Saima (established in 2005), Suzhou Stars Integrated Housing Co., Ltd. focuses on foreign trade. As one of the most professional prefabricated house manufacturers in south-east China, we provide customers with all kinds of integrated housing solutions.

Equipped with complete production lines, including sandwich panel production machines and steel structure production line, with 5000 square meter workshop and professional staff, we already built long-term business with domestic giants like CSCEC

and CREC. Also, based on our export experience in the past years, we are furthering our steps to global customers with best product and service.

As a supplier to overseas customers all over the world, we are very familiar with the manufacturing standards of various countries, such as European standards, American standards, Australian standards, and so on. We have also participated in the construction of many large-scale projects, such as recent 2022 Qatar World Cup camping construction.
