Product Description

Description

Introducing our **20ft Durable Macaron-colored Containers**, where vibrant aesthetics meet robust performance. These eye-catching containers, available in soft, macaron-inspired hues like mint green, blush pink, and sky blue, bring a fresh, modern look to any setting. Beyond their stylish appearance, each unit is built for durability, using high-grade, weather-resistant steel to withstand harsh conditions, making them ideal for both storage and modular living applications.

Our macaron-colored containers prioritize **environmental sustainability**, utilizing recycled steel and eco-friendly insulation materials that help reduce the carbon footprint. Designed with energy efficiency in mind, the containers come pre-fitted with thermal insulation to maintain a comfortable interior temperature year-round. Whether you're looking to create a chic pop-up shop, an office space, or a cozy tiny home, these containers offer a perfect blend of form, function, and environmental responsibility.

Category	Specification

Company introduction

As a wholly-owned subsidiary of Wujiang Saima (established in 2005), Suzhou Stars Integrated Housing Co., Ltd. focuses on foreign trade. As one of the most professional prefabricated house manufacturers in south-east China, we provide customers with all kinds of integrated housing solutions.

Equipped with complete production lines, including sandwich panel production machines and steel structure production line, with 5000 square meter workshop and professional staff, we already built long-term business with domestic giants like CSCEC and CREC. Also, based on our export experience in the past years, we are furthering our steps to global customers with best product and service.

As a supplier to overseas customers all over the world, we are very familiar with the manufacturing standards of various countries, such as European standards, American standards, Australian standards, and so on. We have also participated in the construction of many large-scale projects, such as recent 2022 Qatar World Cup camping construction.
