Product Description

Description

Introducing our **Unique Triangular Spire Design Detachable Container House**, the perfect blend of modern aesthetics and functional engineering. This innovative container house features a striking triangular spire roof that not only enhances its visual appeal but also provides superior drainage performance, efficiently directing rainwater away from the structure to prevent accumulation. The detachable design allows for easy transport, quick assembly, and relocation, making it ideal for both temporary and permanent installations. Built with durable materials, this container house is designed to withstand harsh weather conditions while offering flexibility, comfort, and energy efficiency. Whether for residential, commercial, or temporary use, the **Triangular Spire Container House** delivers a stylish, functional, and eco-friendly solution.

As a wholly-owned subsidiary of Wujiang Saima (established in 2005), Suzhou Stars Integrated Housing Co., Ltd. focuses on foreign trade. As one of the most professional prefabricated house manufacturers in south-east China, we provide customers with all kinds of integrated housing solutions.

Equipped with complete production lines, including sandwich panel production machines and steel structure production line, with 5000 square meter workshop and professional staff, we already built long-term business with domestic giants like CSCEC and CREC. Also, based on our export experience in the past years, we are furthering our steps to global customers with best product and service.

As a supplier to overseas customers all over the world, we are very familiar with the manufacturing standards of various countries, such as European standards, American standards, Australian standards, and so on. We have also participated in the construction of many large-scale projects, such as recent 2022 Qatar World Cup camping construction.

Suzhou Stars Integrated Housing Co., Ltd. mainly has five types of products: folding container house, flat pack container house, detachable container house, modified shipping container (in development), and steel structure construction, which can be widely used in many fields, such as dormitory, camp, office, canteen, shop, toilet and shower, viewing pavilion, firefighting station, isolation ward, etc.
