- Certification: CE, ISO14001, ISO9001, ISO45001
- Model Number: E001
- Minimum Order Quantity: 1 Set
- Price: USD 7000~10000/Set
- Packaging Details: 2 units/40hq
- Supply Ability: 100 Sets PER Month

#### Product Specification

- Usage: Housing, Office, Accommodation, Etc.
- Frame: Q235B Galvanized Steel
- Port: SHANGHAI NINGBO
- Design Style: Contemporary
- Outer Frame: Steel Structure
- Style: Modern Simple
- Keyword: Mobile Living Container House
- Window: Aluminum Alloy Sliding Window
- Application: Home
- Color: Customized
- Highlight: **40 Foot expandable container homes, Customized Modular expandable container homes, Foldable Modular expandable container homes**

## Product Description

Customized 40 Foot Modular House, Expandable And Foldable, 4-bedroom Prefabricated Small Foldable House With Bath

Individuals opt for expandable container homes due to a multitude of compelling factors:

Firstly, their prefabricated and modular nature ensures that the construction process is streamlined and time-efficient, with the majority of work completed in a controlled factory environment. This modularity also allows for personalization to suit individual needs and preferences.

Secondly, the ease of transportation is a significant advantage, as these homes can be readily dispatched to any desired location and set up on a prepared foundation with minimal hassle.

Moreover, the costs associated with expandable container homes are relatively predictable. Since the majority of the construction is carried out in a factory at a fixed price, the overall expenditure is more consistent and manageable.

Additionally, these homes offer notable environmental benefits by reusing shipping containers that would otherwise be discarded, thereby conserving resources and minimizing waste.

In terms of durability and strength, expandable container homes are constructed from high-quality steel, making them resilient to extreme weather conditions and fire hazards.

Their versatility is another appealing aspect, as these homes can be adapted for various purposes, such as residential, commercial, or even mobile clinics, thanks to their modular design.

Furthermore, these homes are designed to be space-saving and expandable, catering to individuals who require a compact yet scalable living or working solution.

Lastly, while the initial investment may vary, expandable container homes are cost-effective in the long run. With proper maintenance, they can provide a durable and reliable space for many years.

In essence, expandable container homes offer a blend of prefabrication, transportation convenience, cost predictability, environmental benefits, durability, versatility, space-saving design, and long-term cost-effectiveness.

As a wholly-owned subsidiary of Wujiang Saima (established in 2005), Suzhou Stars Integrated Housing Co., Ltd. focuses on foreign trade. As one of the most professional prefabricated house manufacturers in south-east China, we provide customers with all kinds of integrated housing solutions.

Equipped with complete production lines, including sandwich panel production machines and steel structure production line, with 5000 square meter workshop and professional staff, we already built long-term business with domestic giants like CSCEC and CREC. Also, based on our export experience in the past years, we are furthering our steps to global customers with best product and service.

As a supplier to overseas customers all over the world, we are very familiar with the manufacturing standards of various countries, such as European standards, American standards, Australian standards, and so on. We have also participated in the construction of many large-scale projects, such as recent 2022 Qatar World Cup camping construction.

Suzhou Stars Integrated Housing Co., Ltd. mainly has five types of products: folding container house, flat pack container house, detachable container house, modified shipping container (in development), and steel structure construction, which can be widely used in many fields, such as dormitory, camp, office, canteen, shop, toilet and shower, viewing pavilion, firefighting station, isolation ward, etc.
