Product Description

T-Type Customizable Shipping Containers - Modular Solutions for Global Logistics

Core Features:

Adaptive T-Type Structure

Our T-type containers feature reinforced steel framing with 2.5-5 ton load capacity, designed with dual-side accessibility (6058×2438×2680mm standard dimensions) for efficient cargo handling. The innovative roof design enhances structural integrity against 120km/h winds.

Tailored Configurations

Choose from multiple customization options:

- **Material:** Galvanized steel walls (SGCC/SGCH) or EPS sandwich panels
- **Layout:** Partition walls, sliding doors, or foldable partitions
- **Specialty:** Insulated variants (-25°C to 30°C temp control), photovoltaic panel-ready roofs

Smart Mobility

Pre-fabricated components enable rapid deployment within 48 hours. Each unit ships flat-packed (6-8 units/40' container), with optional wheel bases for relocation.

Technical Specifications

- Frame: 1.5mm hot-rolled steel
- Floor: 28mm marine plywood
- Certification: ISO 1496-1, CSC safety approval
- Lifespan: 20+ years with anti-corrosion treatment

Industry Applications

- ✓ Mobile offices/workshops
- ✓ Offshore equipment housing
- ✓ Disaster relief shelters
- ✓ Retail pop-up stores

Quality Assurance

Complete production cycle control from our 20,000 Jiangsu facility, backed by 5-year structural warranty. All units undergo 72-hour water tightness testing.

Customization Process

Consultation → 2. CAD Design → 3. Prototype → 4. Bulk Production

Lead time: 15-25 days for MOQ 10 units

Why Choose Us?

- 18 years OEM/ODM experience
- CE/RoHS compliant
- 24/7 multilingual support
