Product Description

Product Description: Expandable Container Solutions for Modular Applications

We specialize in manufacturing **high-quality expandable containers** tailored for modular construction, temporary housing, commercial spaces, and outdoor events. Our products combine durability, versatility, and innovative design to meet global market demands.

Key Features:

Modular Expandable Design

Our containers feature **dual-wing expansion systems** (up to 12m in length) and **foldable structures**, enabling space-efficient transportation and rapid deployment. Ideal for pop-up shops, event spaces, or emergency housing.

Customizable configurations (e.g., office, bathroom, kitchen modules) for seamless integration into any project.

Premium Materials & Durability

Constructed with **aluminum-magnesium alloy** or **weather-resistant steel** to withstand harsh environments, ensuring longevity and low maintenance.

Available in **20ft/40ft standard sizes** or customized dimensions (up to 15m).

Applications:

Commercial: Pop-up stores, cafes, exhibition booths.

Residential: Temporary housing, construction site accommodations.

Industrial: Mobile workshops, equipment storage.

Emergency: Disaster response units, medical field hospitals.

Why Choose Us?

Fast Delivery: 72-hour production cycle for stock models; customized orders shipped within 15 days.

Global Logistics Support: Seamless export services via sea/air freight, with customs clearance assistance.

After-Sales Service: 24/7 technical support and warranty coverage.
