Product Description

Looking for a fast, durable, and versatile housing solution? **The 20ft Expandable Container Home** delivers a premium living or working space that sets up in hours, not months. Built with a high-strength galvanized steel frame and insulated sandwich panels (EPS/PU/Rock Wool/MGO), this unit is engineered for weather resistance and fire safety.

Its innovative expandable design triples the interior space upon arrival, transforming from a compact 2200mm shipping package to a spacious 6300mm wide living area. Ideal for use as a vacation cabin, on-site office, construction camp, or emergency shelter, each home comes pre-fitted with complete electrical wiring, plumbing, lighting, and flooring. You can simply connect utilities and move in.

Highly customizable, the layout can be tailored to include bedrooms, kitchens, or bathrooms. With a rapid installation time of just 2-4 hours by two workers, it's the perfect choice for glamping resorts, staff dormitories, or remote work accommodations. Durable, affordable, and designed for immediate use, it offers a smart alternative to traditional building. Contact us today to learn how this modular solution can fit your life and your land.
